

Become Passion is an interactive 8-CD relationship system that explores the Passion Triangle: Intimacy, Thrill, and Sensuality. What are the critical techniques for deepening the Intimate connection between you and your partner? How can you both recapture the Thrill you thought you'd lost? How can you open up your Sensual life to create intense sexual bliss? Putting into practice what you learn from Dr. Cheryl's exercises, techniques, and personal stories, you can create Passion that Lasts a Lifetime.

"Dr. Cheryl Fraser is a master trainer who possesses the unique and powerful gift of moving students forward in their lives. The **Become Passion** CD series will be one of the most important purchases you will make if you are serious about creating more passion, fun, and intimacy in your relationships."

What people are saying:

"Anyone with a beating heart should run for **Become Passion** work. Because of this weekend my partner and I made love for the first time in over a year."

"I've learned to become not just a better Lover, but a better human being!"

"Passion and Play can Last a Lifetime! I'll show you how."

Sharp, frank, and fearless – that's psychologist Dr. Cheryl Fraser. Whether on TV, radio, print, or at her 3-day Awakened Lover bootcamp, Dr. Cheryl is known for her credibility, humour, straight-talk, and effective interventions. A Fulbright scholar who completed her post-doctoral training at the University of California, San Francisco, Dr. Cheryl cuts through problems and challenges people to create the passionate change they crave.

Although she is a trained "relationship expert," Dr. Cheryl likes to remind people that she is also just another hopeless romantic. Ever since her first orgasm (which involved an electric Snoopy toothbrush), and through some epic love stories and disasters, Dr. Cheryl has confronted the intense, joyful, and painful emotions of relationships from I do to divorce to Becoming Passion. Her unique blend of teaching through personal experiences and comprehensive professional expertise make Dr. Cheryl's **Become Passion** CD series a great gift for your relationship.

Become Passion can turn a dud into a stud, and a good girl into a goddess. When we learn to create passionate, playful Lover relationships, we begin to Awaken Humanity, One Lover at a Time.
